What items show us that Jane is a nurse?

Draw something you own that shows something important about you. Write or tell someone about the object and what it shows about you.

What are some ways Levin's life changes when Jane has to work in the isolation unit?

Can you find places in the book where Levin is feeling:

Happy?

Silly?

Lonely?

Scared?

Cooperative?

In the book, Jane, Daniel, and many others help a lot of people. When is a time that someone helped you, your family, or your community?
