

My Explorer Journal

It's time to explore the world around you!

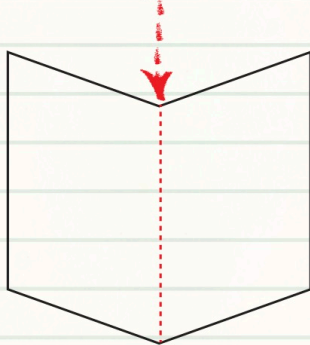

First, use the instructions below to build your journal. Then, fill out the front and back covers with your explorer information.

Instructions:

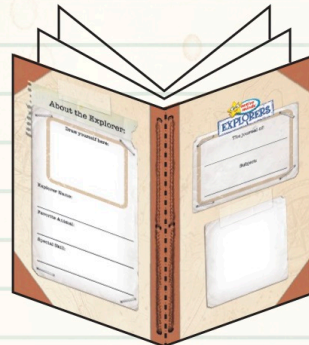

1. Print out the cover and as many interior pages you'd like to add.

2. Fold each page in half on the dotted line with the printed side out.

3. Now stack them into each other. Be sure the cover is on the outside.

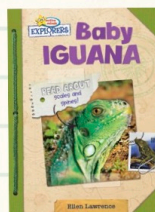

4. Flatten it out in half and staple along the folded edge of your journal.

Bring your journal with you wherever you go. When you see a sign of an animal, write it down. Did you find tracks, hear a noise, or see an animal? You can draw pictures, write a poem, or even create your own secret explorer language! What do you want to explore?
